EDUCATION

Jiangsu University, China— *Computer Science*

October 2018 - June 2022

Significant CS coursework in a wide range of topics such as Operating Systems, Computer Network & Security, Computer Architecture, Data Structure & Algorithms and more.

American International School, Ghana— *High School*

August 2015 - May 2018

PROJECTS

TMDB Movie Catalog — *Vanilla React Website*

Front-end web application that utilizes the TMDB API to fetch movie metadata, complete with categories and search functionality.

E-Commerce Application— *NextJS Website*

Full-Stack E-Commerce application with a crypto payment system built using NextJS and an Express backend, deployed on a VPS using docker containers.

Monopoly Deal— *React Web Application*

A digital version of the famous Monopoly Deal card game I created so my friend and I could play even when we are not together.
